Palacký University, Olomouc**

Would like to invite you to the PhD defense by:

Mgr. František Zálešák

with topic:

“Benzo[*d*]thiazole-2-sulfonamides: Their synthesis and applications in the field of synthetic method development”

Ph.D. thesis focuses on the synthesis of *N*-substituted and *N,N* disubstituted benzothiazole (BT) sulfonamides and their application in the context of organic synthesis. Developed approaches exploit several different strategies based on N-S, N-C and C-S bond formation and they are applied to various substrates. BT-sulfonamides are further used in several modifications, including stereoselective and chemoselective previously undescribed transformations.

**The defense will take place on October 14th, 2021 at 10:00 in a room 6.014 at
Faculty of Science, 17. listopadu 12, Olomouc.**
